DEPARTMENT OF STATE
THE DIRECTOR OF INTELLIGENCE AND RESEARCH
WASHINGTON

August 12, 1983

lia A-2
15 AUG 1983

RECEIVED

MEMORANDUM FOR: Mr. William Casey
Director of
Central Intelligence

SUBJECT: INR Automated Intelligence Support

In compliance with a request made by the House Permanent Select Committee on Intelligence, the Intelligence Community Staff conducted a study of INR's Automated Intelligence Support capabilities.

I want to commend the efforts made by the Information Handling Committee of the IC Staff and specifically support the following recommendations:

- The current INR-Departmental efforts to implement the COINS interface be continued along with the development and implementation of software capabilities for the distribution of NSA traffic based on TAGS.
- That a contractor be engaged to conduct a study of INR present and long term ADP requirements. As part of this study, an examination will be made by the contractor and appropriate community personnel of existing systems that could meet these requirements. INR will fund this effort.

That no additional computer related hardware as specified in the report be purchased pending the recommended study.

I have designated the Office of Intelligence Support to manage these efforts and would appreciate IC Staff technical consultation and expertise.

Given the stringent financial resources available to support this effort in the past, I welcome your support in assisting us to obtain the necessary resources to meet this very important goal.

Hugh Montgomery
